

Fulton Deluxe Drill Press Table Machine Fit Chart

10" Drill Press

12" Drill Press

14" or Larger Drill Press

The Fulton Deluxe Drill Press Table will mount on to drill press machines ranging in size from 10" all the way up to 17". However, please note: 10" drill press machines have a shorter swing than larger drill press machines. This means that the chuck and drill bit will no longer line up center to the drill press table opening. The maximum size drill bit you'll be able to use on a 10" drill press without drilling into the Fulton Deluxe Drill Press Table is 1-5/8" in diameter.
