

# Super Wide Miter Guide Assembly

3603 Assembly  
Instructions Version 1.0

## Safety First

Disconnect saw from power source before making any adjustments.

Always wear proper ear protection when working with machinery.

Use caution when handling sharp objects (saw blades, router bits, drill bits and so on). Use protective gloves whenever possible.

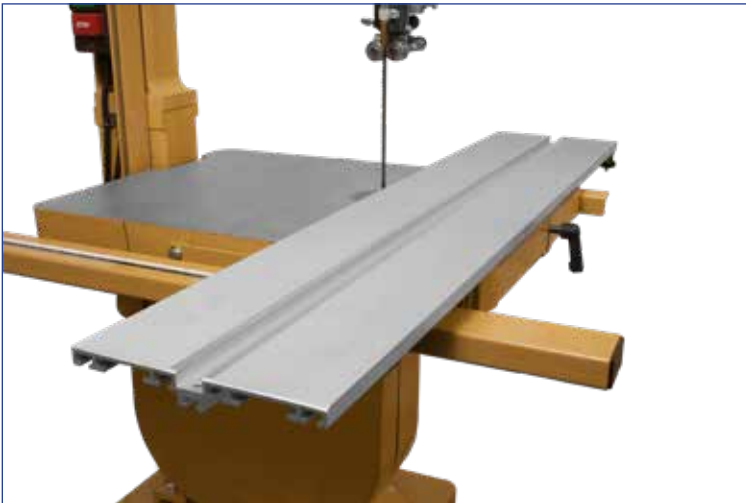

Always wear proper eye protection when working with machinery and tools.

Always wear proper respiratory protection when working near airborne dust particles.

*Please read and fully understand any and all safety materials that came with your power tools or machinery before operation. Always follow all safety guidelines set in place by the power tool or machine manufacturer.*

## 1. Place Guide on Band Saw Table

Place the Super Wide Miter Guide on to your band saw table so it fits neatly into the band saw miter slot. The Super Wide Miter Guide should hang over each end of the table equally.

## 2. Secure Guide to Table Top

Using the two aluminum hold downs (1 on each side of the table), secure the Super Wide Miter Guide to your band saw table top as shown above.

## 3. Secure the Legs to the Miter Guide

Place each leg toward the outer edge of each end of the Super Wide Miter Guide for optimum support. Secure each leg using the supplied T-bolts and Knobs as shown above. Once the legs are secure, adjust the legs and feet so that the feet sit firmly on the floor.

## Start Using your Super Wide Miter Guide!

# Attach the Add-on Guide

(optional & sold separately)

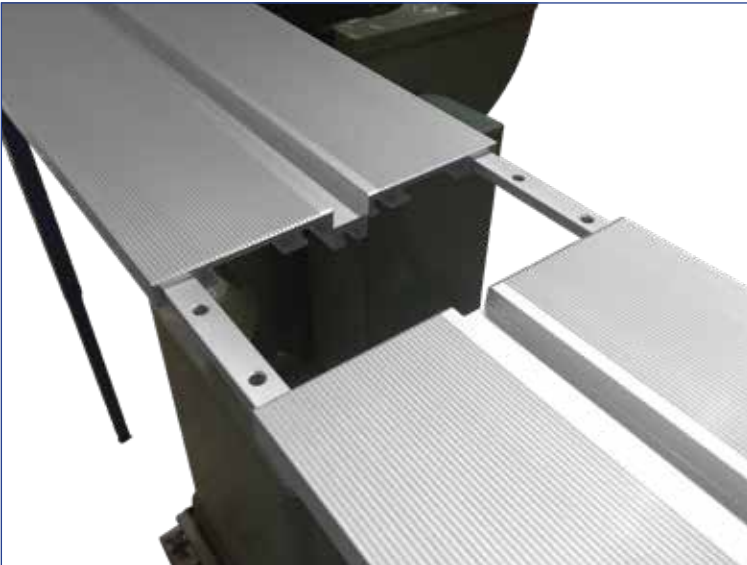

*Before installing the Add-on Guide, we recommend that the leg that is on the back end of the original guide be removed. The leg will be re-attached in the "Super Wide Miter Guide Add-on" installation process.*

## 1. Slide Bars into Guide

Slide the two bars into the tracks under the Super Wide Miter Guide that is on the band saw table. Leave about half of the bars out from the edge of the guide. Secure the bars using the set screws and a hex key wrench.

## 2. Attach Add-on Guide

Attach the removed leg to the far end of the add-on guide and with the attachment bars secured to the first guide, slide the Add-on Guide onto the bars as shown above. Slide the track together and secure track using the set screws and a hex key wrench.

## Start using your Extended Super Wide Miter Guide!

Center the unit on to your band saw table and you are now ready to start using your extended Super Wide Miter Guide!
